

# One-Stop Shop Services

Windtower at the Masdar Institute in Masdar City

---

Every aspect of licensing and operating from Masdar City – the global centre of future energy – has been refined, and reengineered where necessary, to ensure organisations operating in the city can focus all their resources and efforts on their core activities.

Nearly everything else is handled by Masdar City's One-Stop Shop, a best-in-class service for companies operating in this special economic zone.

---

# Masdar City

## Introduction

Masdar City is an emerging global hub for renewable energy and clean technologies that positions companies located in the city at the heart of this international industry.

A special economic zone in Abu Dhabi where businesses can thrive and innovation can flourish, Masdar City offers full foreign ownership, exemption from personal and corporate taxes and a community of likeminded professionals.

It is a model for sustainable urban development regionally and globally, seeking to be a commercially viable development that delivers the highest quality living and working environment with the lowest possible environmental footprint.

## The One-Stop Shop Reengineered

Our goal at One-Stop Shop is to make it as easy as possible for you to operate from Masdar City. Your work is too important and your time too valuable to be spent on anything but your business. That's why we at Masdar City have taken our expertise in maximising resource efficiency and minimising waste – across systems, processes and technologies – and applied it to a comprehensive re-engineering of what a special economic zone "One-Stop Shop" can be.

## Easy

We have built One-Stop Shop to be your easy, single point of contact for dealing with the various local government authorities and Masdar City departments. One-Stop Shop handles all aspects of registration, licensing and leasing related to Masdar City, as well as government services, such as visas, customs clearance and driving licenses.

## Enhanced

Beyond helping companies deal with local government and Masdar City departments, One-Stop Shop also provides a range of business and office support services for all types of organisations. These include office fit-out and facilities management services to travel and translation facilities, IT support, reception services, and onsite access to utilities and banking services.

## Efficient

To further enhance the efficiency of the already streamlined licensing, registration and set-up process in the Masdar City Special Economic Zone, One-Stop Shop assigns a dedicated business associate to assist each company through the process. The result: registration takes as little as three days and generally not more than five days, and no more than five steps – mostly done through One-Stop Shop.
